

## TROPICAL CYCLONE BULLETIN NR. 4

### Tropical Storm OPONG (BUALOI)

Issued at 11:00 AM, 24 September 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### “OPONG” FURTHER INTENSIFIES WHILE MOVING WEST SOUTHWESTWARD OVER THE PHILIPPINE SEA.

##### Location of Center (10:00 AM)

The center of Tropical Storm OPONG was estimated based on all available data at **815 km East of Northeastern Mindanao (9.7°N, 132.9°E)**.

##### Intensity

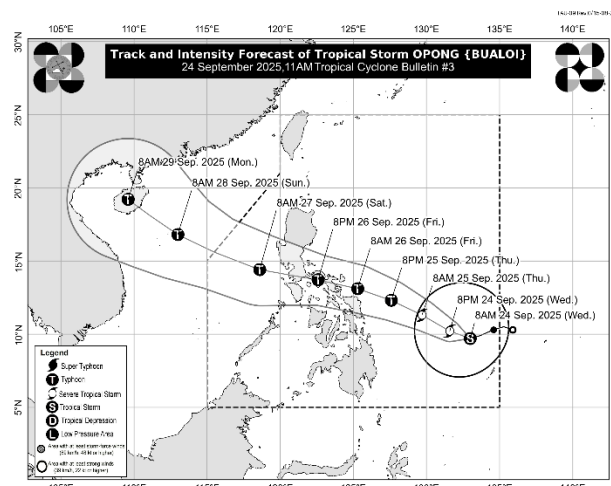

Maximum sustained winds of **85 km/h** near the center, gustiness of up to **105 km/h**, and central pressure of **996 hPa**

##### Present Movement

**West southwestward at 15 km/h**

##### Extent of Tropical Cyclone Winds

**Strong to gale-force winds** extend outwards up to **450 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
<b>12-Hour Forecast</b> 8:00 PM 24 September 2025	10.2	131.6	740 km East of Maasin City, Southern Leyte	100	STS	WNW 15
<b>24-Hour Forecast</b> 8:00 AM 25 September 2025	11.3	129.7	430 km East of Guiuan, Eastern Samar	110	STS	WNW 20
<b>36-Hour Forecast</b> 8:00 PM 25 September 2025	12.3	127.6	325 km East of Catarman, Northern Samar	120	TY	WNW 20
<b>48-Hour Forecast</b> 8:00 AM 26 September 2025	13.1	125.3	Over the coastal waters of Laoang, Northern Samar	130	TY	WNW 20
<b>60-Hour Forecast</b> 8:00 PM 26 September 2025	13.7	122.6	Over the coastal waters of Buenavista, Quezon	120	TY	WNW 25
<b>72-Hour Forecast</b> 8:00 AM 27 September 2025	14.4	118.6	245 km West of Indang, Cavite	120	TY	W 35
<b>96-Hour Forecast</b> 8:00 AM 28 September 2025	16.8	113.0	785 km West of Bacnotan, La Union (OUTSIDE PAR)	140	TY	WNW 25
<b>120-Hour Forecast</b> 8:00 AM 29 September 2025	19.2	109.6	1,245 km West of Extreme Northern Luzon or in the vicinity of Hainan, China (OUTSIDE PAR)	140	TY	NW 20

## TROPICAL CYCLONE BULLETIN NR. 4

### Tropical Storm OPONG (BUALOI)

Issued at 11:00 AM, 24 September 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
<b>1</b> Wind threat: <b>Strong winds</b>	-	Northern Samar, Eastern Samar, and Samar	-
Warning lead time: <b>36 hours</b> Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b> Potential impacts of winds: <b>Minimal to minor threat to life and property</b>			

OTHER HAZARDS AFFECTING LAND AREAS
<b><u>Heavy Rainfall Outlook</u></b>  Refer to Weather Advisory No. 20 issued at 11:00 AM today for the heavy rainfall outlook due to Tropical Cyclone OPONG and the Southwest Monsoon.  <b><u>Severe Winds</u></b>  The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction. <ul style="list-style-type: none"><li><b>Minimal to minor impacts</b> from strong winds are possible within any of the areas under Wind Signal No. 1.</li></ul> The highest Wind Signal that may be hoisted throughout the passage of OPONG is Wind Signal No. 4.  The Southwest Monsoon, both enhanced by NANDO and OPONG, will bring <b>strong to gale-force gusts</b> over the following areas (especially in coastal and upland areas exposed to winds): <ul style="list-style-type: none"><li><b>Today:</b> Ilocos Region, Cordillera Administrative Region, Batanes, Cagayan including Babuyan Islands, Isabela, Zambales, Bataan, Tarlac, Pampanga, Nueva Ecija, Bulacan, Metro Manila, Cavite, Batangas, Quezon, MIMAROPA, Western Visayas, Negros Island Region, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Agusan del Norte, Surigao del Norte, Dinagat Islands, Sarangani, Davao del Sur, and Davao Oriental.</li><li><b>Tomorrow (25 September):</b> Ilocos Region, Batanes, Cagayan including Babuyan Islands, Isabela, Zambales, Bataan, Zamboanga del Norte, and most of MIMAROPA, Visayas, Northern Mindanao, Caraga, and Davao Region</li><li><b>Friday (26 September):</b> Batanes, Cagayan including Babuyan Islands, Ilocos Norte, Ilocos Sur, Zamboanga del Norte, and most of MIMAROPA, Visayas, Northern Mindanao, Caraga, and Davao Region.</li></ul>

## TROPICAL CYCLONE BULLETIN NR. 4

### Tropical Storm OPONG (BUALOI)

Issued at 11:00 AM, 24 September 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### HAZARDS AFFECTING COASTAL WATERS

Gale Warning will likely be issued tomorrow (25 September).

##### 24-Hour Sea Condition Outlook

**Up to moderate to rough seas over the following coastal waters:**

- **Up to 3.0 m:** The eastern seaboard of Northern Samar; the northern and eastern seaboard of Eastern Samar.
- **Up to 2.5 m:** The eastern seaboard of Catanduanes and Dinagat Islands; the northern seaboard of Northern Samar.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

##### Coastal Inundation

There is a potential risk of coastal flooding due to storm surge in low-lying coastal areas of Southern Luzon and Eastern Visayas due to the passage of OPONG. **Storm surge warning may be issued starting today or tomorrow (25 September).**

#### TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall, severe winds, and storm surge may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to the hoisted Wind Signals (for direct wind threat of the tropical cyclone) and "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift more to the north or to the south but within the limit of the forecast confidence cone.**
- OPONG is forecast to begin moving west northwestward while approaching Eastern Visayas – Southern Luzon area. On the forecast track, OPONG may make landfall over Bicol Region by Friday (26 September) afternoon and cross Southern Luzon from Friday afternoon until Saturday (27 September) morning. It may exit the Philippine Area of Responsibility by Saturday evening or Sunday (28 September) morning.
- OPONG will continue to intensify while over the Philippine Sea and may reach typhoon category before making landfall over Bicol Region. It will then weaken as it crosses the archipelago, although it will likely remain as a typhoon or severe tropical storm during the passage. Re-intensification is highly likely once OPONG emerges over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
